## Recording a patient's blood pressure

Measure blood pressure in both arms – are these within 15mmHg?

**Yes** - measure subsequent blood pressures in the arm with the higher reading

No - repeat the measurements. If the difference remains more than 15 mmHg, measure subsequent blood pressures in the arm with the higher reading

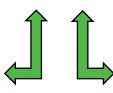

Is blood pressure more than 140 /90mmHg?

**Yes** - repeat the measurement

No – record measurement

Do these differ by more than 15mmHg?

**Yes** - take a third measurement. Record the lower of the last 2 measurements
