

Developing leading products for the dental care market has been at the forefront of KIN since 1964.

In 1970, KIN launched the first mouthwash and have continued to work at the cutting edge to develop innovative, quality dental products and obtain revolutionary patents for the dental market.

Research and Innovation have always been the fundamental pillars of almost 60 years of KIN business. Research and development of leading products for the dental care market has been at the forefront of KIN Dental. Today KIN are recognised as pioneers in innovation and development of products, which provide the best there is in the Oral Healthcare Market.

Our values and philosophies are shared in over 60 countries around the world and we are delighted to extend our commitment to educate patients in the importance of oral hygiene.

We are proud to support the BSP and their activities to promote periodontal health for a better life.
