

BSP AWARDS & PRIZES

THE SIR WILFRED FISH RESEARCH PRIZE

YEAR	NAME
1972	I C MacKenzie
1973	J W Rippin
1974	Prize not awarded
1975	Prize not awarded
1976	J V Soames
1977	G J Seymour
1978	H F Sewell
1979	R Sogle, N Sabag and C Mery
1980	K S Kornman
1981	Prize not awarded
1982	D V Clerehugh
	K A Eaton
1983	S J Poole
1984	J E Clague-Moore
1985	F J Hughes
1986	J R Radford
1987	P A Heasman
	D F Kinane
1988	B H Mullally
1989	S Pritlove-Carson
1990	P J Byrne
1991	M T Gibson
1992	I L C Chapple
	M Lubbock
1993	C N Kennet
	J S Ellis
1994	G N King
1995	J A James
1996	A L Alavi
1997	A J Biddle
	T Myrillas
1998	Soha Shirodaria: "Polymorphisms in the IL-1 A gene are correlated with levels of interleukin-1 alpha protein in gingival crevicular fluid of teeth with severe periodontal disease."
1999	Dr Fionnula Lundy
2000	Helen Fraser: "Elevated systemic concentrations of soluble ICAM-1 are not reflected in the gingival crevicular fluid of smokers with periodontitis."
2001	Simone Haworth: "Genetic susceptibility factors for cyclosporin induced gingival overgrowth in renal transplant patients."
2002	Gareth Brock: "Compromised antioxidant defence in periodontitis: the role of glutathione."

2003	M L Lorente
2004	Yu-Kang Tu: “Analyses of the relationship between baseline disease and treatment effect in periodontal research: the problem of regression to the mean and its solutions.”
2005	Luigi Nibali: “NADPH oxidase polymorphism as a risk factor for presence and severity of Periodontitis.”
2006	Anthony Roberts: “How periodontal pathogens take advantage of a stressed host.”
2007	Nagihan Bostanci: “Novel regulators of bone resorption in periodontal disease: The molecular interplay of RANKL-OPG-TACE.”
2008	Mike Milward: ““Modulation of the host response to periodontal bacteria using a natural antioxidant.”
2009	Mandeep Ghuman: “Suppression of osteogenic potential caused by gingival fibroblasts”.
2010	Rebecca Wassall: “Management of periodontal disease in patients with type 2 diabetes.”
	Martina Pirie: “Periodontal disease and preterm, low birthweight – a biological link?”
2011	Douglas Robertson: “Periodontal disease in non-smoking patients with type 1 diabetes.”
2012	Prize not awarded
2013	Martin Ling: “Chemotactic accuracy of peripheral blood neutrophils in chronic periodontitis using a novel direct visualisation chemotaxis chamber.”
2014	Praveen Sharma: “Association between Periodontal Health, Cardio-Renal Health and Mortality in Patients with Chronic Kidney Disease.”
2015	Phillipa White: “The Interactions between Periodontal Bacterial Species and Neutrophil Extracellular Traps in Periodontitis.”
2016	Helen Roberts: “Neutrophil function in Papillon-Lefevre Syndrome.”
2017	Emily Ming-Chieh Lu: “Mesenchymal Regulation of the Junctional Epithelium”
2108	Federico Moreno-Sancho: “The CCU-OHQoL Questionnaire: Development and Validation”
2019	Ana Caetano: “Mapping Human Gingival Tissues at Single Cell Resolution”
2020	Cher Farrugia: "Role of Fusobacterium nucleatum and Multispecies Interactions in Endothelial Damage"
2021	Chaitanya Pradeep Joshi: "Coronary Artery Disease Risk is Increased by Periodontal Pathobionts."
2022	Vitor Neves: "Glucose metabolism modulation in periodontal disease prevention as a form of preventive medicine"

2023	Niamh Coffey: "Periodontal Disease prevalence and Oral Hygiene in Adults with Cystic Fibrosis."
2024	Crystal Marruganti: "Periodontitis increases the susceptibility to severe plaque psoriasis. A University-based cross-sectional study and microRNA expression analysis."
2025	Noha Zoheir: "IL10 promoter haplotypes shape the periodontal microenvironment: A multi-omics analysis in a UK cohort."
